

AGRA CULTURE : UPTOWN
2939 Girard Ave S Minneapolis, MN 55408

What if there was an entire culture based on fast, fresh, and healthy food? *There is now.* It's called Agra Culture, and it is redefining what and how we eat. The words "Locally-sourced" have become urban buzzwords, but Agra Culture is more than just a farmers market, it is a group of chef-crafted delights created in a kitchen designed to promote a food revolution. Agra Culture needed the decor to mirror their menu (and philosophy) so we (naturally) used natural raw materials and reclaimed wood. *Yum.*
